

NATHASHA PERERA

Software Engineering Undergraduate | Full-Stack & Mobile Developer

Chilaw, Sri Lanka | +94 76 733 1989 | shashininathasha42@gmail.com

LinkedIn: [linkedin.com/in/nathashaperera](https://www.linkedin.com/in/nathashaperera) | GitHub: github.com/Nathashaperera | Portfolio: nathashaperera.github.io

PROFESSIONAL SUMMARY

Software Engineering undergraduate specializing in full-stack and mobile development, with hands-on experience building web and mobile applications using React, Node.js, Spring Boot, and Flutter. Skilled at delivering end-to-end solutions — from REST API design to responsive UI — across academic, freelance, and internship projects. A strong bilingual communicator (Sinhala / English) with proven leadership and teamwork, seeking a Software Engineering Internship at Sri Lanka Telecom to contribute to real-world, technology-driven solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript, Dart, Kotlin

Frontend: React, Next.js, Angular, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, Spring Boot, REST API design

Mobile: Flutter, Android (Kotlin), Provider state management

Databases: MySQL, MongoDB, Firebase

Tools & DevOps: Git, GitHub, VS Code, Android Studio, IntelliJ IDEA, Postman

Practices: Agile, role-based access control, responsive UI design

EXPERIENCE

Team Lead / Software Intern – FluentMe (Pvt) Ltd

6 months – Present | Continued as Team Lead

- Supported system administration and platform management for the organization’s online learning platform, ensuring reliable day-to-day operation.
- Coordinated project management activities — tracking tasks, timelines, and deliverables — to keep releases and workflows on schedule.
- Led and supervised a team of instructors and staff, handling scheduling, attendance, and cross-team communication in a fast-paced environment.
- Acted as the key liaison between students, instructors, and management, improving communication flow and issue resolution.

Freelance Software Developer

Self-employed | 2024 – Present

- Loan Ledger – Mobile App (Client project):** Built a cross-platform mobile application for tracking loans, repayments, and running balances, giving the client a simple digital ledger to replace manual record-keeping. [confirm stack / features]
- Governess College – Project 1:** [Add project name + one line: e.g. developed the college website / a student management portal, tech used, and outcome.]
- Governess College – Project 2:** [Add project name + one line describing what you built and the technologies used.]

[Additional Role from LinkedIn – Title]

[Company] | [Dates]

- [Paste your two LinkedIn experiences here — rewritten with developer-focused, action-verb bullets. See my message for the template.]

KEY PROJECTS

WasteToTaste – Food Waste Management Platform 2025

Tech: React.js, Node.js, Spring Boot, MongoDB, REST APIs, Bootstrap, Agile

- Developed a full-stack web platform connecting food outlets with customers through surplus food listings to reduce food waste.
- Implemented role-based access control, location-based search, and a gamified “Spin” feature for surprise meals to boost user engagement, with a responsive, user-friendly interface.

Uni Management – University Portal 2025

Tech: React.js, Node.js, Express.js, MongoDB (MERN)

- Built a responsive web app to manage university events, resources, attendance, and user roles, improving operational efficiency and campus engagement.

Customer CRM System 2024–2025

Tech: Spring Boot, MySQL, REST APIs, Postman

- Engineered a CRM backend to manage customer data, interactions, and analytics, with REST APIs and a scalable architecture for business use.

HealthMate – Health Management App 2025

Tech: Flutter, Dart, MongoDB

- Developed a mobile app to help users track daily health activities, with a clean, responsive UI built on modern mobile development practices.

Weather Pro – Cross-Platform Weather App 2025

Tech: Flutter, Dart, Weather API

- Created a cross-platform mobile app delivering real-time weather forecasts, using Provider state management for efficient UI updates.

Student Net – Student Management App 2024

Tech: Kotlin, Firebase

- Built an Android app for student management with secure cloud data storage and an intuitive interface for efficient record handling.

Additional projects (Smart Library – Java, Online Weather Forecast – JS, Eco Car-Ride) available on my [GitHub](#) and portfolio.

EDUCATION

BSc (Hons) in Software Engineering – *In Progress*

Kingston University, UK (via ESOF Metro Campus, Sri Lanka)

Higher National Diploma in Computer Science & Engineering

IUHS – Nalanda Campus, Galle

Higher Diploma in Information Technology

ICET Academy, Panadura

G.C.E. Advanced Level (2019) – Biology, Chemistry, Physics | Ordinary Level (2017)

Holy Family Balika Maha Vidyalaya, Marawila

SOFT SKILLS & LEADERSHIP

Problem-Solving · Critical Thinking · Decision-Making · Leadership · Teamwork · Communication · Project Management · Negotiation

ACTIVITIES & LANGUAGES

Activities: Planet Protector Member · Prefect, Holy Family Convent, Marawila · Yoga (2 years, IUHS Nalanda Campus) · Sports

Languages: Sinhala (Native) · English (Professional Working Proficiency)
